UX PROJECTS

Yummy Application Figma, Prototyping

- Created an application for food recipe videos and tutorials for beginner and advanced chefs.
- Researched into other applications and interviewed users to create a user friendly environment.
- Created storyboards and wireframes to organize thoughts and brainstorm ideas.

Yelp Application Improvements Figma, Prototyping

- Improved the Yelp to appeal to the user's needs and fix any features that were lacking in clarity and direction.
- Altered reviewing process so users will be given information that is relevant to their particular desires and wants.
- Provided a way to filter older reviews from newer ones, giving user a better understanding of the overall business.
